

## Why the FIBARO System fits you perfectly?

There are endless reasons to choose FIBARO. Learn the most important features!

### 1. Wireless

No wires = non-invasive installation and repair! FIBARO technology is wireless, modern and safe - it allows you to add more devices in a completely non-invasive way.

### 2. Complementary

Our devices create a complementary ecosystem, ready-to-use and ready-to-integrate with other manufacturers hardware.

### 3. Modular

FIBARO is the perfect solution when you plan to expand your system gradually, adjusting it to your financial capabilities and growing needs.

### 4. Remote

With the mobile application you can be in constant contact with your home - manage and control it from anywhere in the world.

### 5. Unique

FIBARO devices are not only useful, but also exceptionally beautiful. Our designers make every effort to ensure that their look will satisfy even the most demanding customers.

### 6. Safe

Your data and access to your home are protected at the highest level by WAF and Anti-DDoS systems including encryption of communication using TLS protocol and passwords using bcrypt.

# FIBARO®

# Welcome Home!

At FIBARO, we believe that Home is the most important place in the world. That's why we have developed a system that provides a comfortable, friendly and safe home environment.

## There's no place like Home

Our devices will make your Home take care of you and your beloved ones. Full integration of all components of the FIBARO System and its modularity give you full control and the freedom to create the right solutions you were looking for.

Smart home is not only a place but also a lifestyle. A lifestyle that provides solutions to improve comfort, safety and save your time, money and energy. It is meant to be a friendly space which meets the needs of all its inhabitants.

## Smart, more than clever

Smart home is a home that helps us live our lives - it adapts to our behaviours and simplifies our daily routine. What's more, it provides important house data to each family member.

The wide range of products and capabilities of the FIBARO System allow your Home to take care of your comfort and safety.
